# Anti-Wrinkle Anti-Allergy **Before** After 0.3% Control U-ferment\*SVB Allergen treated Normal cell Allergen treated

# Healing

# Honey Ferment Filtrate

When the hot and dry climate continues, trees and plants in alpine regions secrete liquids to prevent moisture from evaporating and coat the leaf fly with sugary water, which bees collect and store in the honeycomb, and that is the Honey Ferment Filtrate contained in HONEYTEMLAB series.

# **Honey Ferment Filtrate**

#### **Antioxidant**

Antioxidants are compounds that inhibit oxidation. Oxidation is a chemical reaction that can produce free radicals. Therefore it is good for anti-aging and healthy skin

# Anti-Inflammatory

Ingredients such as aromatic acid, phenolic acid, and flavonoids, propolis made by bees protect harmful microorganisms and acts as an inflammatory agent, which is effective in exfoliating skin or acne.

# Hydration

Honey has 20% of a moisture content, so it concentrates on the skin without evaporating the moisture of the skin, which increases the moisturizing effect. It is rich in vitamins B, C, etc.. Which makes it effective for skin care

## Hair Health

It is effective for hair health and elasticity by containing vitamin H12 amino acids which help exfoliate the scalp and reduce dandruff

# 7 Ferment Complex

# **7 Ferment Complex**

Pomegranate Barley Seeds Grape Pumpkin Portulaca Oleracea Bean Rice

# 7 Ferment Complex

#### Punica Granatum Fruit Ferment Extract

Pomegranate is thought to contain natural antimicrobials from vitamin C, which may help fight bacteria and fungus in your skin. Such benefits may help treat P. acnes bacteria, which may be a precursor to acne breakouts.

#### **Grape Ferment Extract**

has the ability to release endothelial growth factor and its topical application results in contraction and closure of the skin wound. Furthermore, it possesses antioxidant and antibacterial properties.

#### **Barley Seed Ferment Extract**

Barley also contain selenium, a mineral that doubles as a powerful antioxidant, which helps protect skin cells from free radical damage. It also contains zinc, B vitamins, and iron, all of which are essential for promoting the health of skin and hair

# 7 Ferment Complex

Pumpkin Ferment Filtrate

Portulaca Oleracea Extract

Rice Ferment Extract

Bean Ferment Extract.

Pumpkin contains vitamin A, C, and E, and antioxidants, which help fight sun damage and wrinkles. It also has fruit enzymes that help naturally exfoliate dead skin cells.

Portulaca oleracea is rich in antioxidants that fight free radicals that damage DNA and cause skin cell death. ... Antioxidants like vitamins A, B1, B2 and C in purslane extract neutralize free radicals and prevent the appearance of wrinkles and fine lines.

Rice is good for freckles, skin aging, and shoulder pain, back pain, allergies, etc. as it has nourishment, whitening effects. Aspergillus / Rice ferment extract increases absorption rate of active ingredients in rice with anti-inflammatory and whitening effects.

They are a good source of Niacin (vitamin B3) and Pantothenic, which are essential for a healthy and beautiful skin. Due to their nutritious value, beans are recommended for people with eczema, itching skin, dry skin, skin allergies and general dermatosis.
